Pacific Pipeline, Project Breakdown by Result Area

Pacific Pipeline, Project Breakdown By Thematic Impact Area

The Pacific Regional DAE Experience: Working with SPC

- Strategic placement
- Mobilizing project pipelines
- Collaborative regional approach

Pacific
Community

Communauté
du Pacifique

Project Highlight: Regional Programmatic Approach on Climate Action (RPACA)

Five different accredited entities

A long-term, bankable and strategic program

First time any region has taken this pathway

CFAN helping catalyze collaboration

Opportunities and Lessons Learned

- Strategic partnerships
- Capacity and coordination for improved access
- Leveraging social capital
- Prioritization and planning (3rd NDC, NAPs)
- Consistency and continuity
- Reform of international climate finance mechanisms
- Need for project preparation support to advance pipelines

In partnership with
Canada
